SUMMARY

Computer Science graduate with hands-on experience in web application QA and development. Skilled in identifying and reporting defects, performing functional and UI testing, and collaborating directly with developers in Agile teams. Trained in software testing methodologies, including STLC, test case design, and automation using Selenium with Python. Detail-oriented, quick to learn, and eager to contribute to QA projects while strengthening both manual and automation testing expertise.

EDUCATION

Bachelor in Computer Science (Hons) Sunway International Business School, IUKL, Nepal	2022 3.46 GPA
+2, NEB Board St. Lawrence College, Kathmandu, Nepal	2017 66.4%
SLC, NEB Board Shubharambha Secondary School, Kathmandu, Nepal	2015 75%

TECHNICAL SKILLS

Manual Testing: HTML, CSS, Functional Testing, UI Testing, Exploratory Testing, Bug Reporting

Automation: Selenium (Python), Pytest, Page Object Model

API Testing: Postman

Performance Testing: JMeter

Tools: ClickUp, Jira, Trello, Git, Figma, Notion

Programming: Python, C

Database: MySQL (CRUD Operations)

Methodologies: SDLC, STLC, Agile (Scrum)

PROFESSIONAL EXPERIENCE

QA Intern Brahmabyte Lab (https://brahmabytelab.com/)	March 2026 – June 2026 Kathmandu, Nepal
--	--

- Worked as a QA intern on Chatboq.com, a SaaS-based chatboq platform.
- Performed regression, functional, UI/UX, and validation testing across multiple modules.
- Writing and executing test cases for SaaS features including inbox, tickets, visitors, clients, billing, and AI modules.
- Reporting bugs with clear steps to reproduce, expected results, actual results, severity, and priority.
- Using basic HTML and CSS knowledge to understand UI structure, inspect elements, verify layouts, and support frontend testing.
- Reported bugs in ClickUp with detailed steps, screenshots, and actionable feedback.
- Developed and maintained automation test scripts using Python, Playwright, and Selenium, implementing POMbased frameworks and automating key business workflows to enhance test coverage and efficiency.

QA Assistant Heal Home Care (https://www.healhomecare.com/)	Nov 2023 – Feb 2025 Kathmandu, Nepal
---	---

- Tested web platform and mobile application features, identifying and documenting functional and UI issues.
- Reported bugs in ClickUp with detailed steps, screenshots, and actionable feedback.
- Collaborated directly with developers to verify fixes before release.

- Maintained company website updates and suggested usability improvements.

Web Designer (WordPress)

Freelancer Unit Pvt. Ltd. (<https://freelancernepal.com.np/>)

August 2022 - Sep 2023

Kathmandu, Nepal

- Developed and maintained WordPress websites based on client requirements.
- Reviewed application requirements and interface designs to ensure feasibility and usability.
- Conducted functionality checks and validated implemented features before deployment.
- Collaborated with clients and developers to refine system requirements and improve output quality.

QA Practice Project – SauceDemo Automation

-
- Automated login and checkout workflows using Selenium with Python.
 - Implemented basic Page Object Model structure.
 - Executed tests using Pytest framework.
 - Repository: (<https://github.com/SonuSharma2/SauceDemo-Automation>)

ACADEMIC PROJECTS

Bus Ticket Booking System, *Personal Class Project*

- A Java-based application that allows users to **search buses, book/cancel tickets**, and manage passenger details, with admin access to add or update bus schedules.
- Implements core Java concepts like OOP, file handling, and enabling real-time seat tracking, fare calculation, and ticket management.

Blockchain based Voting System, *Final Year Project*

- Overview: Developed a decentralized voting platform using the Ethereum blockchain, to increase transparency and security in the voting process.
- Achievements: Successfully conducted a test with 150 participants, received positive feedback from the users.

Certifications

-
- Python (Basic) Certificate (HackerRank)
 - Git Workshop
 - Robotics Workshop on Arduino
